

Cupori 130 (White)

Cupori 130 (White) is a pre-painted white copper tube. It is particularly suited for use as installation tubes in heating systems or in visible surface installations, e.g. in bathrooms. A pre-painted white surface lessens work at construction sites, guarantees a smart finish and is easy to keep clean. White copper tubes from Cupori are easy to bend. The tube can be soldered or connected with capillary fittings or with press and compression fittings requiring no hot work.

Applications

Product features

- Pre-painted copper tube
- Long-lasting white color
- Temper: Half-hard
- Supplied in straight lengths
- Suitable for all plumbing installations
